### **Employee Time Mgmt status**

### 1 - Positive Time Entry

All hours, with the possible exception of holiday, must be added to the time file: attendances (e.g., regular, overtime, special, shift diff or on-call) and absences.

### 9 - Negative Time Entry

Only exceptions are added to the time file (e.g., absences, overtime hours worked, shift differential, on-call and special pay hours).

### **IT2003 Substitution Guideslines**

Create an IT2003 record to temporarily change an employee's work schedule. This if necessary if you must reduce or cancel the payment of automatic holiday hours to an employee.

#### Tips:

- TO and FROM date must be the same if substituting for a single date. FROM date should never be 12/31/9999.
- > Subst Type should be "4" if substitution is for Daily Work Schedule

Day Type – Leave blank or enter "0" if substitution is being done to override automatic Holiday hours and designate the day as a work day.
